

YBA CABLE SPECIFICATIONS

Glass speaker cable

Structure : 4 twisted leads to be coupled by pair.
Resistance : 0.01 ohm / m
Capacitance : 70 pF / m

Glass interconnect

Structure : 4 twisted leads to be coupled by pair.
Resistance : 0.01 ohm / m
Capacitance : 70 pF / m

Diamond speaker cable

Structure : 12 leads twisted three by three, insulated, shielded also three by three and sheathed (three shielding levels ensure perfect immunity).
Resistance : 0.01 ohm / m
Capacitance : 250 pF / m

Diamond Interconnect

Structure : 12 leads twisted three by three, insulated, shielded also three by three and sheathed (three shielding levels ensure perfect immunity).
Resistance : 0.01 ohm / m
Capacitance : 250 pF / m
